Britain Signs New Trade Pact With Turkey

Treaty Is Considered Important Political, Commercial Stroke

United Kingdom Expects "Considerable Increase" In Trade To Result From Accord With Turkish Government

LONDON, Dec. 5.—(CP)—The foreign office announced last night conclusion of a financial agreement between the British and Turkish governments "which they hope will bring about a considerable increase in their trade."

The accord provides payments between Turkey and nations of the sterling area to be made at the existing rate of exchange between the Turkish lira and the pound sterling, the announcement said.

It also stipulates special accounts be created to facilitate commercial and other payments between Turkey and the British Empire.

Diplomatic circles here were quick to term the treaty not only an important commercial move, but a political stroke as well.

The treaty, the government was a "direct" challenge to German economic domination in the Balkans as represented by the 16-year Rumanian-German treaty announced in Berlin Wednesday.

These diplomats added they believed the Turkish pact was concluded after Germany was "ready to tempt the Turkish by attractive new commercial propositions."

NAZI DOMINANCE It was pointed out that in the past Britain has enjoyed less than 10 per cent of Turkey's foreign trade, while Germany has captured about 90 per cent.

The agreement, complements a trade and payments pact signed in London last Feb. 3. It followed signing of a new commercial agreement between Britain and Spain earlier this week.

Anthony Eden, war secretary, recently toured the Near East, where he was believed to have presented Britain's diplomatic as well as her military position to Turkey, Egypt and possibly to representatives of territories not yet Empire.

Stalin's certification to Japan that Sino-Russian relations remain as before, following signing of the new basic peace treaty between Wang Ching-wei and the Japanese Rurik, reaffirms his support of Chiang Kai-shek, in opposition to the Russians.

NO ILLUSIONS Under the treaty Wang Ching-wei pledged the Nanking government to oppose Communism. The Japanese have informed Moscow they are not anti-Russian policy is involved in the anti-Communist clause of the Chinese treaty.

Stalin can have no illusions about the matter. The spread of Russian influence in China cannot be severed from the spread of Communism. That is a new Communist, but it is more difficult for those who support still hope for an advantageous agreement with the Russians.

Any territorial concessions in the

Bad News For Nazis Are These Bombers Under Construction For Britain

Very bad news indeed for the Nazis are these powerful consolidated heavy bombers being rushed to completion at the Consolidated plant in San Diego, California. They are among the 20 ships of this type purchased by the British to aid in battle against the Nazis. First of this class have already started long, long trips to "undisclosed destinations"—informed sources go on to say that two and two together to get four claim that that "long, long trip" involves flight over the United States, then across the Atlantic to beleaguered Britain. These aerial giants when completed weigh 20 tons, cruise a 1,300-mile radius at 300 miles per hour and take five days of time.

PEACE APPEAL PROPOSAL IS VOTED DOWN

Independent Labor De-mand For Peace Conference Rejected

LONDON, Dec. 5.—(RUP)—The House of Commons by a vote of 241 to 14 today rejected a "peace appeal" proposal by the Independent Labor party after Lord Prichard of Glenartney had demanded government opposition.

A demand for a peace conference to bring this tragic devastating conflict to an end, was made by J. McClelland, Independent Labor member of Glasgow.

But Aitken rejected the proposal and said that "the alternatives before the country are not war and peace but war and what kind of peace."

Speaking for the I.L.P., McClelland, a fiery debater, had urged the government to call a peace conference.

He said there were many in Britain who believed that "no opportunity should be allowed to pass by which we might with intelligence, and if necessary in a spirit of compromise, bring this tragic, devastating conflict to an end."

Aitken asked who would attend a peace conference if one were called now.

GREATEST TRAGEDY "Would Hitler, who already had rejected a peace conference proposal before invading Poland, now represent the conflict he has created?" Aitken asked.

He said that the greatest tragedy of today was in the East European theatre. He said, a great great young man had been trained to go back to Berlin.

"It is no good thinking that fact and Germany is a mistake in suggesting that all the German people are simple, kindly folk," he said.

4 Trawlers, One Drifter, Are Lost

LONDON, Dec. 5.—(CP)—The Admiralty tonight announced the loss of four trawlers and one drifter, all of which had been engaged in the Atlantic.

The vessels were the trawlers *Albatross*, *Albatross*, *Albatross*, and *Albatross*, and the drifter *Albatross*.

Former residents of Edmonton will thank you many times for this thoughtful remembrance.

Greeks Attempting To Encircle Entire South Albania Front

Italians' Main Base Barracks At Tepelini Are Attacked By Dive-Bombers—Fascist Lines Disrupted

BELGRADE, Yugoslavia, Dec. 5.—(AP)—Greek sources said that Greek troops entered Porto Edda and were expected to occupy Argirocastro tomorrow.

The Greeks here said these successes sealed virtual collapse of the Italian campaign on the southern front, which the Fascists had aimed originally at Athens.

By HAROLD A. PETERS

STRUGA, Yugoslavia, Dec. 5.—(RUP)—Reports reaching the Yugoslav frontier today said that Greek troops had captured Porto Edda, main Italian coastal base in south Albania, at 8 a.m. Previously Athens had reported Greek troops in the outskirts of Porto Edda, but capture of the port lacked official confirmation.

Reports received here said that the village of Spokli, 800 miles north of Konispoli, had been taken yesterday by the Greeks.

The Greeks were said to have crossed the River Pacha after fighting in which both sides lost heavily and then to have occupied the village of Vrioti, two miles from Porto Edda, on the road from Porto Edda to Delvino.

The Greeks were reported to have fought their way across the road and partly encircled Porto Edda.

Italians Withdraw During Night

British and Greek airplanes joined in the attack and six craft bombed Porto Edda in two waves late yesterday afternoon.

During the night, it was reported, Italians withdrew their remaining forces from Porto Edda, retiring along the coastal road to the village of Nivica, but leaving a battalion to cover their retreat.

The Greeks this morning entered the city, the frontier messages reported, after a fight in which they lost three officers and 28 men, and 70 wounded. The Italians were said to have lost eight officers and 68 men killed and 150 wounded. The Greeks captured five officers and 120 soldiers, as well as four auto trucks, two light field guns, nine machine guns and much other material, the reports said.

By ARMS

ATHENS, Dec. 5.—(BUP)—Greek armies battled to encircle the entire south front in Albania today while Greek dive bombing planes hammered Italian communications in an effort to prevent stabilization of a new enemy defence line.

A government spokesman said that Italian barracks at Tepelini—now the main Italian base in the extreme south—had been hit by Greek dive bombers.

The barracks was said to be crowded with Fascist reinforcements rushed to the front in an effort to stem the Greek advance that previously had resulted in occupation of Premeti, and carried Greek troops to the outskirts of Porto Edda and within a few miles of Argirocastro.

Commerce Secretary Of U.S. Is In Agreement That Great Britain "Good Risk"

By SANDOR S. KLEIN

WASHINGTON, Dec. 5.—(BUP)—Secretary of the Treasury Henry Morgenthau, Jr., said today he had agreed with Secretary of Commerce Joseph H. Jones that the British government is a good loan risk.

Morgenthau declined, however, to say whether a loan to Britain for the war effort was contemplated, but he would not comment on the subject.

He denied reports that he was arranging for the immediate release of more than 100 merchant ships to the British government.

"I am not conducting any ship negotiations for anybody," he said. "Mr. Morgenthau, who arrived in New York last night, said he was going to talk with British financial circles," Morgenthau said.

He said whether he was seeking U.S. credit.

BRITAIN WILL GET REMINDER OF WAR DEBT

Washington Prepares Half-Yearly Notice Of Money Owed

By J. C. STARR
WASHINGTON, Dec. 5.—(AP)—A reminder will go to Great Britain in a day or two that an amount of about \$2,500,000,000 of unpaid first Great War debt complicates the current problem of financial assistance from United States.

With no hope of collecting anything, the state department is preparing the semi-annual notice to Britain and other war debtors of the amounts due the United States government Dec. 15.

The "negatives" that have come back from Britain in the last several years stand as a barrier now to any private loans in United States.

JOHNSON ACT

The reason is the Johnson Act, a measure sponsored in congress in 1914 by a veteran Republican Senator Hiram Johnson of California, who declared today he is running up for a fight at the next session against expected moves to repeal it.

Enacted in the days before Hitler's war machine really began to take shape, and even before Mussolini started his campaign against Ethiopia, the Johnson Act makes it a criminal offense for any person in the United States to make a loan to a government which is in default of any debt to the United States.

But the act specifically exempts from the ban "a public corporation created by or pursuant to special authorization of Congress, or a corporation in which the government of the United States has or exercises a controlling interest through stock ownership or otherwise."

NEUTRALITY ACT

The Neutrality Act contains a similar prohibition against loans and credits as well by any "person" to any belligerent nation named in a Presidential proclamation on the existence of a state of war. The President has never proclaimed the existence of a state of war between Japan and China, but all the "neutrality" belligerents have been named in proclamations.

The act says that the term "person" includes a partnership, company, association or corporation, as well as a natural person. It does not mention the government in connection with this definition of a "person."

Despite these apparent legal "loopholes" permitting government aid, however, indications have come from official quarters that Congress would be consulted on any such move.

BRITAIN USES U. S. AIRCRAFT IN EAST AREA

LONDON, Dec. 5.—(CP)—United States-built aircraft are being used extensively by the Royal Air Force in the Middle East and the Mediterranean, the ministry of information said Wednesday night.

One of its outstanding performances was said to have been the making of a raid on the harbor of Tripoli, giving the story of the fleet air arm's blow, it knew at the time.

The R.A.F. in the Middle East is enthusiastic about the performance of the American aircraft, the ministry said. "These have brought their way successfully through the operations."

The reliability of American engines is a surprise to the R.A.F. because some have to be replaced in the "Liberators" and "Blacks" which are proving such a valuable aid to British command, command and have taken part in hundreds of raids from Norway to the Bay of Biscay."

LONDON PAPER ASKS BOMBING OF CIVILIANS

LONDON, Dec. 5.—(CP)—Reversal of the British policy to refrain from bombing of civilians was advocated editorially today by the Daily Mail.

Stating that the Germans have abandoned all pretence that their bombers are after military objectives, and that their declared aim is to break the spirit of this country, the paper said British command should reconsider their policy in this matter.

Bombing of German resources is still of the first importance, it added, and reprisals are a waste of military effort, but civilian destruction is to be made the tool of victory or defeat, we cannot afford to leave the odds stacked against our own people."

The handspike to go against the editorial concluded, "If the Nazis insist upon using their bombing as a weapon of war, then we must use it too."

Favors Loan

Detroit, Dec. 5.—(AP)—Henry Ford said Wednesday that if Great Britain needs money he favored "giving them all they want. It would not be a loan," he said, "it would be a gift."

SOVIET POLICY TOWARD CHINA IS UNCHANGED

Russia Informs Japanese Attitude Not Changed By Nippon Pact

MOSCOW, Dec. 5.—(AP)—Tass, official Russian news agency, reported today the Russian government had informed Tokyo that its policy with regard to China remains unchanged by Japanese recognition of the Chinese regime at Nanking headed by Wang Ching-wei.

Tass said Russian Ambassador Shternin had called at the Japanese foreign office yesterday and delivered the following statement on behalf of his government:

"The Soviet government notes the statement of the Japanese government to the effect that an article of agreement has been concluded between Japan and Wang Ching-wei not directed in any way against the U.S.S.R. and that it will not affect Japan's desire to adjust her relations with the U.S.S.R."

"On its part the Soviet government desires to state that the policy of the Soviet Union with regard to China remains unchanged."

The Japanese statement referred to by the Russian ambassador last Sunday by Japanese vice-minister of foreign affairs Chichi Onishi.

Onishi explained the news agency added that article three in the agreement concerning the struggle against communism was not directed in any way against the U.S.S.R. and that said article follows from purely internal considerations.

M. P. PROPOSES AMENDMENT TO DIVORCE LAW

OTTAWA, Dec. 5.—(CP)—An amendment to the Divorce Jurisdiction Act was proposed in the House of Commons yesterday by George Black (Con. Yukon).

The amendment proposed to enable married women to start suit on grounds of desertion in any province having a divorce court even though the desertion took place before the divorce court was created.

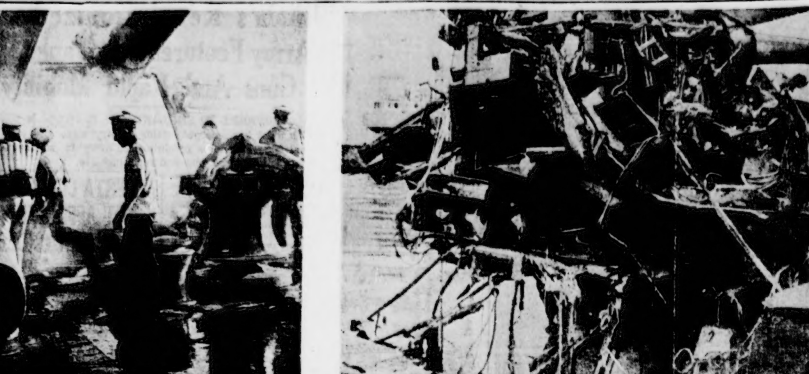

Under the present law, Mr. Black said, the action must be started in the province where desertion occurs.

Reports Denied

LONDON, Dec. 5.—(CP)—A Netherlands spokesman today denied reports from London that Queen Wilhelmina was going to New York.

The spokesman said that the queen was not planning to visit New York.

The spokesman said that the queen was not planning to visit New York.

Vichy Government Tardily Admits Destruction Of Its Fleet At Oran

Mortally wounded the French battleship Bretagne sailed to the bottom in the Battle of Oran, which opened five days after the French commander, Admiral Marcel-Bruno Gensoul, refused to admit to British proposals that would have ensured the French fleet of not falling into Germany's hands for use against Britain. A decisive victory was scored by the small British force and Hitler's hopes of acquiring this portion of France's naval forces were rudely shattered. These pictures were released by the Vichy government as the official version of the battle.

INTEREST-FREE WAR LOAN URGED BY C. C. F. HEAD

OTTAWA, Dec. 5.—(CP)—A compulsory interest-free war loan based on ability to pay, was proposed by M. J. Coldwell, C.C.F. house leader, yesterday in an amendment to the government's resolution to go into committee of ways and means on its tax and tariff charges.

"On its part the Soviet government desires to state that the policy of the Soviet Union with regard to China remains unchanged."

This move would follow the example of New Zealand, a less wealthy country. The amendment expressed regret that the government had not seen fit to raise such a loan.

In New Zealand the loan would mature a year after the termination of the war. Mr. Coldwell said the southern part of this constituency could raise \$2,000,000, six times as many farmers were, if the loan were applied generally.

The farmers were anxious to do their full share and would place their "weight" at the government's disposal as the basis of a loan.

Many had crops of 38 to 50 bushels an acre. The present delivery quota of 8 to 12 bushels an acre in various provinces was insufficient to enable farmers to meet their bills.

Minister Leaves

MASSAU, The Bahamas, Dec. 5.—(CP)—Hon. J. A. McKinnon, Canadian minister of trade and commerce, and his fellow members of a trade mission to the West Indies and South America left the Bahamas by plane late Wednesday for Jamaica, flying by way of Miami, Fla.

A shell-blasted gun turret on the French battleship Bretagne, which was wrecked by British naval action during the Battle of Oran, is shown above. The Bretagne was but one unit of the French naval force that was either sunk, wrecked or beached, as Britain moved fleetly to prevent the French fleet from being used by Germany after the French surrender.

Varsity Steer Sold In Chicago For High Price

CHICAGO, Dec. 5.—(CP)—Rebus Head, a 1,500 pound red Shorthorn, which travelled 2,000 miles to become reserve grand champion steer at the 1st International Livestock Show, was sold for 60 cents a pound at auction today, bringing its owner, the University of Alberta, Edmonton, a sale price of \$750.

The reserve champion was bought by Placerville Bros. of Chicago, purveyors of fine meats for the Ye Olde Cellar, a Chicago restaurant, where it will be converted to steaks and roasts.

The Canadian steer made the longest trip of any animal in country position at the exposition and was by a shade being designated the winner, when judges held it was a little shy of meat across the back.

Last year's reserve grand champion steer, a Hereford, showed by Jack Baker of Texas, brought 50 cents a pound.

ENMAN MAYOR OF BABY CITY SEVENTH TIME

Three Wetaskiwin Aldermen Seeking Re-Election Next Monday

Executive to Edmonton Bulletin
WETASKIWIN, Dec. 5.—Mayor of Wetaskiwin for six terms, Charles D. Enman was returned to office for his seventh term by acclamation on Monday. The aldermen whose terms expire this year are Morley Morrow, W. A. MacAllister and George Baylis.

Alderman Andy Vold has another year but has tendered his resignation due to leaving the city at the end of the year, thus causing a fourth vacancy.

The above three aldermen are seeking reelection and there are two new candidates, Lt.-Col. Godfrey Baker and Rev. A. J. MacAllister. Elections will be held on Monday, December 8.

The three vacancies on the school board have been taken by N. A. MacAllister, Nick Donald and H. P. Stock, all three having been re-elected. The separate school board vacancies were filled by the re-election of Rev. Father MacDonald, A. T. McIlhenny and Samuel Baker.

Three Men Are Injured In Car Crash At Calgary

CALGARY, Dec. 5.—(CP)—With a crash heard throughout the Chinatown area, a shuddering car smashed into a steel electric light pole on the Centre St. bridge about midnight, seriously injuring three young men.

The injured are: Joseph Frazer, 26, severe head and facial cuts and severe shock; Earl Weatherly, 24, severe cuts around the head and face; Gordon Bloomfield, 21, fractured collarbone and severe cuts to the face.

Driver of the car, Donald Bloomfield, brother of Gordon, escaped injury although hurled out into the street. Gordon Bloomfield and Weatherly were also tossed out, while witnesses found Frazer in the wreckage.

All Rumania Ships Are Requisitioned
BUCHAREST, Dec. 5.—(BUP)—The Rumanian government today authorized the ministry of marine to requisition all ships.

Another decree excluded all Jews from the Rumanian army and reserves and stipulated that Jews aged 18 to 21 must work only days annually on state projects.

You know which day HE CALLS TO COLLECT

It may be inconvenient for you to run upstairs to get the money when the boy delivers your Bulletin calls to collect . . . but it is more inconvenient for the boy to have to wait for his money. He must pay for his papers promptly, as soon as he receives his bill. In order to do this, he must collect from each customer each week.

CANADIAN BACON IS PLEASING TO ENGLISH PALATE

AN EAST COAST CANADIAN PORT, Dec. 5.—(CP)—Bacon from Canada is pleasing the English palate, but the other half of the newspaper breakfast combination is mighty scarce at the British Isles, according to housewives arriving here from Britain.

"Eggs are worth their weight in gold," declared one woman who came here yesterday.

Told that Canada had this year shipped more than 100,000 eggs to the United Kingdom, against a normal yearly export of 1,000,000 dozen, they bawled a game that the British ministry of food was probably holding the eggs in storage.

Even lacking the accompanying eggs, the Canadian bacon stands enough with the British. "It's not like what we eat in the last war and an old soldier. After 1918 I didn't touch bacon for 10 years."

Debunks Polar Bear
COLORADO SPRINGS, Colo.—(CP)—The polar bear does not infold weather, Edward W. Clark of the Mountain Zoo, reports. The bear is in the lake and the polar bear is in the lake and the polar bear is in the lake.

Funny Business

"That's Genuis Jones on duty again!"

TAX MEASURES "INADEQUATE" MEMBERS SAY

Opposition Leaders Criticize New Proposals As Insufficient

By CARL REISKE

OTTAWA, Dec. 5.—(CP)—The "inadequacy" of the government's emergency tax and tariff proposals is being criticized by opposition leaders in the House of Commons—not the new burden thus imposed on the people of Canada.

The people, recognizing the necessity of the situation, are prepared for greater sacrifices than those involved in the tax measures announced this week, the government was told yesterday, but the people want to know sacrifices distributed fairly.

AMENDMENT MOVED

To emphasize that stand, M. J. Colwell, acting house leader for the Co-operative Commonwealth Federation, introduced an amendment proposing a compulsory, interest-free war loan "to be levied according to ability to subscribe." If New Zealand could do it, Canada, certainly could, he said.

Mr. Colwell, the Conservative House Leader Hanson endorsed the principle of the government's anti-inflation tax policy, although both had criticisms to make of details. John Blackmore, New Democratic leader, reiterated his group's stand for conscription of finance, but agreed to support the Colwell amendment because it was intended to provide interest-free money.

Both Mr. Hanson and Mr. Colwell questioned the adequacy of the government's safeguard against price rises under the protection of the new import prohibitions and restrictions.

"FIRST DOSE"

Mr. Hanson submitted the new measures were insufficient to maintain a necessary equilibrium in Canada's exchange relations with the United States. In view of continuous large purchases of war supplies there.

Three measures, he suggested, would be necessary to bring about the reaction throughout the country had been good.

Because Canada had increased her purchases from the United States, he said, the government should ask the United States to view its trade pact with Canada, so Canadian exports to the United States would be increased.

He proposed that the government should ask the United States to view its trade pact with Canada, so Canadian exports to the United States would be increased.

"TOO THIN"

Mr. Colwell declared the reduction of tariffs against British goods were "too thin and altogether ineffective." Australia, he said, not only kept British goods and at the same time gave the British cause the fullest effect, he said. He urged that more British goods be put on the free list.

As far as restricting imports from the United States was concerned, he believed embargo was preferable to increased tariffs.

Higher prices merely deprived the people on the lowest economic levels of the taxed goods, some of which were necessities and not luxuries. Persons with higher incomes would pay as before.

In proposing his amendment favoring a compulsory war loan, he submitted that when the young men of the country were being called up to fight, they ought to be asked to give their blood to the nation, he said, but merely a loan "to the country in her hour of need" when the danger has passed away.

TELLS EXPERIENCE

Mr. Hanson said the proposal is making will meet with a response from a large number of our people, and I can say that because of my interesting experience I have had this "boom" he said.

He said he spent considerable time with L. H. Hamilton, C.C.F. member of the Saskatchewan legislature for Elmer riding, which includes roughly with the southern part of the province-Biggar constituency.

Mr. Hamilton was promoting the idea of a voluntary, interest-free loan and after talking with him, he said business men he estimated that \$100,000 could be borrowed for war purposes, without interest, from farmers in Elmer riding, if the government would accept wheat as the basis for such a loan.

"We want Canada to be able to stand on its own feet, and I feel that under the leadership of those who are now in power, we are in a position to do so."

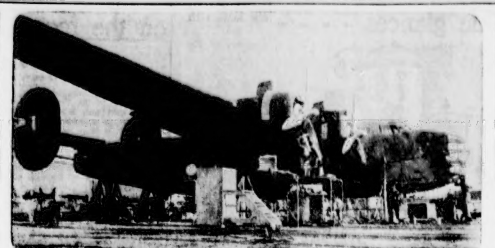

He said he was not a member of the Saskatchewan legislature for Elmer riding, which includes roughly with the southern part of the province-Biggar constituency.

He said he was not a member of the Saskatchewan legislature for Elmer riding, which includes roughly with the southern part of the province-Biggar constituency.

U.S. Bombers For Britain

One of the four-engine Consolidated Liberator bombers being built for Britain at San Diego, Calif. Known as model 32 B-24, they have a speed of more than 300 miles per hour, a range of about 1,000 miles, and a carrying capacity of approximately four tons-bomb weight. Wing span is 110 feet, length, 84 feet, gross weight, 40,000 pounds.

Fire Is Controlled In Norwegian Ship

AN EAST COAST CANADIAN

PORT, Dec. 5.—(CP)—The crew of a Norwegian freighter early today gained control of a fire that had broken out in one of the ship's holds as the lay at anchor here.

The fire was confined below decks. None of the crew was injured.

One of the four-engine Consolidated Liberator bombers being built for Britain at San Diego, Calif. Known as model 32 B-24, they have a speed of more than 300 miles per hour, a range of about 1,000 miles, and a carrying capacity of approximately four tons-bomb weight. Wing span is 110 feet, length, 84 feet, gross weight, 40,000 pounds.

PLANE CRASH KILLS EIGHT AT CHICAGO

Airliner Plunges Into Vacant Lot Near City's Airport

CHICAGO, Dec. 5.—(AP)—The death early today of two men brought to eight the number of persons killed in the crash of a United Air Lines plane near the Chicago municipal airport. Eight others were injured.

The biggest problem has been to give longer time to the service and improve radio facilities without increasing the danger of air traffic picking up the signals for guidance.

It is estimated calendar year expenditures for defense purposes for the four years ending 1941, 1942, 1943, 1944, 1945, 1946, 1947, 1948, 1949, 1950, 1951, 1952, 1953, 1954, 1955, 1956, 1957, 1958, 1959, 1960, 1961, 1962, 1963, 1964, 1965, 1966, 1967, 1968, 1969, 1970, 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978, 1979, 1980, 1981, 1982, 1983, 1984, 1985, 1986, 1987, 1988, 1989, 1990, 1991, Midwest Players Dominate All-American Football Team

By HARRY FERGUSON
NEW YORK, Dec. 5.—(HUP)—The midwest, with four men, dominates the 1940 British United Press All-American football team. The team announced today was chosen after a national poll of sports editors and sports writers on British United Press newspapers from coast to coast. In addition, British United Press football writers who have been in press boxes all over the country each Saturday cast their votes.

While no one person is able to see all the football players in the nation, this system has been found to be most satisfactory in obtaining a cross-section of national opinion. It guarantees that players who are not overlooked merely because they are playing on a losing team or representing college.

Geographically, the first team is distributed as follows: Midwest, four; east, two; south, one; far west, two; northwest, one.

Under the method of selecting the team the perfect football player—the man who would have played on everybody's All-American—would have received many votes, but there was remarkable agreement on three backfield men: Tom Harmon of Michigan, George Franck of Minnesota and John Kimbrough of Texas A. & M.

HARMON LED
Harmon led the voting with 438. Kimbrough received 414, and Franck 406.

The outstanding line player, in the opinion of the nation's sports writers, was Nick Doebbs, Cornell. He received 382 votes.

Here, with a brief description of the type of play in which each excels, is the All-American team:

End—Dave Rankin, Purdue, 233 votes. Rankin was a streak who was run-up in the big ten, Purdue, long huddle last year, he was a great defensive end. Standing six feet one inch and weighing 190 pounds, he was used many times as a pass drop because the opposition usually kept two and three men on him. Caught 10 passes for a total of 11 yards.

Tackle—Nick Doebbs, Cornell, 382 votes. Continued this year the first all-around player that carried him a place last season on the United Press All-American. He is six feet, three inches tall and weighs 212 pounds. His outstanding performance probably was in the Ohio State game.

Another Repeater
Guard—Bob Sniffing, Tennessee, 345 votes. Another repeater on the United Press All-American. He generated a terrific, delightful, sneaking tackle for losses and was the hardest tackle on a Tennessee squad that specialized in bruising tackling.

Center—Rudy Muehle, Washington, 281 votes. Six feet, two inches tall, weighing 210, he was one of the great defensive stars of the nation, called signals on Washington's defense last year. He was a sure, cool power and a fighter.

Goal By Desmarais Beats Turner Valley Oilmen 1-0

LETHBRIDGE, Dec. 5.—(CP)—Despite spectacular goal-tending by Roy Roche, Calgary Stampedeers capitalized on a corner play to eke out a 1-0 victory over Turner Valley Oilers in a hard-fought, close Alberta Senior Hockey League struggle here Wednesday night. The win pushed Stampedeers, last season's Western Canada Champions, to the top of the circuit, a game ahead of Lethbridge and Edmonton.

Tony Desmarais, the pivot flash from Regina, picked up Les Thirive's corner pass-out midway in the middle period and scored on a hard shot to the right side of the goal. Shannon started the play, Jimmy Simpson of Calgary, set the game's only penalty for tripping.

Colors, forced to fight in a strong Calgary offensive almost to the end of the second period, played their best in the last eleven minutes of the game. The last three minutes of the game were a perfect game of cat and mouse, with Desmarais and Shannon each having a hard drive into the net.

Desmarais, playing soundly from the start, made his first phenomenal save early in the first frame when defenseman Tommy Dewar stuck him in the back with a hard shot. Even though Oilers power-play caught them down the ice, Roche, Stampedeers' goalie, saved them away at least a half dozen times in the last eleven minutes.

Roche, playing soundly from the start, made his first phenomenal save early in the first frame when defenseman Tommy Dewar stuck him in the back with a hard shot. MAX BAER MAKES HIT IN COMEDY

BOSTON, Dec. 5.—(AP)—Max Baer has discovered his clowning draw more applause on the musical comedy stage than it did in the boxing ring.

The clown, who obviously enjoyed the cheery exchange of champagne as he made his stage debut in a 400-seat musical comedy, "The 14 Gnomes," which began a previous New York show last night, said:

While clowning he wasn't quite as good as he was in the boxing ring, but he was better at clowning. He was doing better in the boxing ring, but he was better at clowning.

Buy First Sacker

SEATTLE, Dec. 5.—(AP)—Seattle baseball club officials reported the purchase for an uncontracted man Wednesday of Les Seaver, former Cincinnati and Boston National League first baseman, from the John Club of the International League.

Seaver, who will replace George Arliss, drafted by the club, is a left hander and a thrower. He is a former Seattle star.

Neglected Family
CALGARY, Dec. 5.—(CP)—Yesterday the mother of nine children was placed on suspended sentence for 12 months in her own home for a charge of neglecting seven of them. The magistrate stated that proceedings were underway to have the children cared for by the state.

Hockey Practice
Canadian juveniles will hold a practice at Clarke Stadium, the city tonight from 8 to 9 o'clock. A full turnout of players is expected.
